# Uni-5 Series

PRICE COMPUTING SCALE  
with PRINTER  
and COLOR TOUCHSCREEN

## Value by design

Ishida's Uni-5 Series of price-computing scales and printers are positioned to be one of the best values in retail weighing today. Retail customers may choose from three distinct printer and scale-base configurations—all with the same easy-to-use universal control panel.

Whether selecting the straightforward bench model, bench with pole, or elevated head style, Uni-5 users can appreciate a large, full-color touchscreen, while customers view advertised specials and details of their purchase on an ultra-bright customer-side LCD.

The Uni-5 is more than just attractively priced. It's also attractive in design, with a polished, black polymer housing that's easy to clean, and a convenient side-loading printer for quick label changing. A low-profile design and green energy consumption round out a long list of essential features for today's progressive retail marketplace.

*Elevated keyboard and displays type*

### Standard Features
